SEED FIELD CORN

To customers who will entertain quotations at open prices TO BE BASED UPON CHICAGO or OMAHA CASH market, we will be glad to quote standard sorts generally grown in this district. Quotations may be for stocks closely ear sorted and tipped and butted before shelling; for the usual "commercial grade" which is sheller-sorted and double milled; and for straight cars loaded in bulk from the sheller and to be graded by purchaser upon arrival. We do not find it practicable to quote field corn at a fixed price regardless of general market values.
